GRADE SPECIFICATION

• The **Maximum Possible Rating** is a projection taking into account the votes already acquired and multiplied by the corresponding coefficients of importance *. In the calculation, NC has a value of zero and the votes that are still to be acquired are assumed as 30. Bonuses or penalties may be possible in the final grading.

• Students with their **Maximum Possible Grade** below 18 can not take part in the final examination. They need to attend the class next year.
