GRADE SPECIFICATION

• The Maximum Possible Rating is a projection taking into account the votes already acquired and multiplied by the corresponding Coefficients of Importance. In the calculation, NC has a value of zero and the votes that are still to be acquired are assumed as 30. Bonus or penalty may be possible in the final evaluation.

• Students with their Maximum Possible Grade below 18 can not proceed in the course and are excluded from the final examination. As a consequence they need to attend the class next year.
